

Report No.: I03144025616D

# **SDS** Report

Sample Description 1-bromo-3-chloro-5,5-dimethylhydantoin

Applicant

Longkou Keda Chemical Co., Ltd.

## Safety Data Sheet

1-bromo-3-chloro-5,5-dimethylhydantoin

Section 1 - Identification of the substance/preparation and of the company/undertaking

#### **Product Identifier**

**Product name :** 1-bromo-3-chloro-5,5-dimethylhydantoin

Relevant identified uses of the substance or mixture and uses advised against

Identified uses : Water treatment biocide

Details of the supplier of the safety data sheet

Applicant : Longkou Keda Chemical Co., Ltd.

Address : 2001 longgang road longkou city shandong province China

**Post code : 265700** 

TEL: +86-535-3463777

FAX: +86-535-8830969

E-mail: market@kadachem.com

**Emergency telephone number** 

**Emergency Phone #** +86-535-8830976

Section 2 - Hazards Identification

#### Classification of the substance or mixture

#### Classification according to Regulation (EC) No 1272/2008 [EU-GHS/CLP]

Oxidizing solids(Category 2)

Skin corrosion (Category 1B)

Skin sensitization (Category 1)

Acute toxicity, Oral (Category 4)

Acute aquatic toxicity (Category 1)

#### Classification according to EU Directives 67/548/EEC or 1999/45/EC

O;R8 C; R34 Xn; R22 R31 R43 N, R50

> www.ponytest.com Add: Yingzhi Building, No.49-3, Suzhou Road,Haidian District, Beijing Fel: (010)82618116 (010)86219629 (021)64856403 il: pony@ponytest.co csh@ponytest.con

## Hazard statement(s)

H272 May intensify fire; oxidiser.

H302 Harmful if swallowed.

H314 Causes severe skin burns and eye damage.

H317 May cause an allergic skin reaction.

H400 Very toxic to aquatic life.

EUH031 Contact with acids liberates toxic gas.

#### **Precautionary statement(s)**

P210 Keep away from heat/sparks/open flames/hot surfaces. - No smoking.

P220 Keep/Store away from clothing/ combustible materials.

P273 Avoid release to the environment.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P301 + P330 + P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting.

P302+352 IF ON SKIN: Wash with soap and water.

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P301 + P310 IF SWALLOWED: Immediately call a POISON CENTER or doctor/ physician.

Supplemental Hazard Statements none

According to European Directive 67/548/EEC as amended.

#### **R-phrase(s)**

- R8 Contact with combustible material may cause fire.
- R22 Harmful if swallowed.
- Contact with acids liberates toxic gas. R31
- R34 Causes burns.
- May cause sensitization by skin contact. R43
- R50 Very toxic to aquatic organisms.

## S-phrase(s)

S1/2 Keep locked up and out of the reach of children.

S17 Keep away from combustible material.

S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

S28 After contact with skin, wash immediately with plenty of water.

S36/37/39 Wear suitable protective clothing, gloves and eye/face protection.

S45 In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

S60 This material and its container must be disposed of as hazardous waste.

S61 Avoid release to the environment. Refer to special instructions/ Safety data sheets.

Other hazards No information available

#### Section 4-First Aid Measures

#### **Description of first aid measures**

**Eye Contact:** Check for and remove any contact lenses. Flush with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating the eyelids with fingers. Get medical aid immediately.

Skin Contact: Immediately wash skin with soap and copious amounts of water while removing contaminated clothing and shoes. Cover the irritated skin with an emollient. Cold water may be used. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention immediately. Ingestion: Do not induce vomiting. Never give anything by mouth to an unconscious person. Wash out mouth with water. Get medical aid. Loosen tight clothing such as a collar, tie, belt or waistband. Examine the lips and mouth to ascertain whether the tissues are damaged, a possible indication that the toxic material was ingested; the absence of such signs, however, is not conclusive.

**Inhalation:** Remove from exposure and move to fresh air immediately. Loosen tight clothing such as a collar, tie, belt or waistband. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek medical attention if irritation develops or persists. WARNING: It may be hazardous to the person providing aid to give mouth-to-mouth resuscitation when the inhaled material is toxic, infectious or corrosive. Seek immediate medical attention.

Notes to Physician: Treat symptomatically.

Section 5 – Fire-Fighting Measures

#### Extinguishing media

#### Suitable Extinguishing Media:

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Use water spray to cool unopened containers.

Special hazards arising from the substance or mixture:

Contact with other material may cause fire. May accelerate combustion. Forms explosive mixtures with air on intense heating. May emits toxic fumes under fire conditions. This material in sufficient quantity and reduced particle size is capable of creating a dust explosion. Keep product and empty container away from heat and sources of ignition.

Report ID: 103144025616D **Advice for firefighters:** 

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

#### Section 6 - Accidental Release Measures

#### Personal precautions, protective equipment and emergency procedures

If packages rupture. Ensure adequate ventilation. Use personal protective equipment. Keep people away from and upwind of spill/leak. Evacuate personnel to safe areas. Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep substance wet using water spray. Avoid dust formation. Avoid breathing dust, vapor, mist, or gas. Shut off source of the leak only if it is easy to do so. Do not get water inside containers.

#### **Environmental precautions**

Take precautions to ensure product does not contaminate the ground or enter the drainage system, surface water, sanitary sewer or ground water system.

#### Methods and materials for containment and cleaning up

Fel:

(010)82618116

(010)86219629

il: pony@ponytest.co

Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Keep in suitable, closed containers for disposal.

## Section 7 - Handling and Storage

#### **Precautions for safe handling**

In accordance with good industrial practice, handle with care and avoid unnecessary personal contact. Use with adequate ventilation. Avoid breathing dust, vapor, mist, or gas. Avoid contact with eyes, skin, and clothing. Avoid ingestion and inhalation. Avoid prolonged or repeated exposure. Avoid physical damage to the container. Empty containers retain product residue, (dust and/or solids), and can be dangerous. Keep away from open flames, hot surfaces and sources of ignition. Keep away from heat and direct sunlight. Use only non-sparking tools. Use explosion-proof equipment. Ground

and bond containers when transferring material. Take precautionary measures against static discharges. No smoking, eating and drinking water at workplace. Before break and at the end of work hands should be thoroughly washed. Do not allow water to get into the container. Keep away from incompatibles such as reducing agents, combustible materials, organic materials, acids.

#### Conditions for safe storage, including any incompatibilities

Store in a tightly closed container. Store in a cool, dry, well-ventilated away from incompatible substances and foodstuff containers. Keep away from heat, sparks and open flames. Keep away from sources of ignition. Keep away from direct sunlight. Keep away from moisture and water. Keep away from combustible materials and wooden floors. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Keep out of the reach of children. **Specific end uses** 

No data available

## Section 8 - Exposure Controls/Personal Protection

#### **Control parameters**

**Exposure limits:** No data available

#### **Engineering Controls**

Ensure adequate ventilation, especially in confined areas. Use explosion-proof electrical/ ventilating/lighting/equipment Ensure that eyewash stations and safety showers are close to the workstation location

**Personal Protective Equipment** 

Eyes Protection: Wear chemical splash goggles.

Skin Protection: Wear appropriate protective gloves.

Fel:

(010)82618116

(010)86219629

pony@ponytest.co

**Body Protection:** Choose body protection according to the amount and concentration of the dangerous substance at the work place.

**Respirators Protection:** Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced. **Other Protection:** Do not eat, smoke or drink where material is handled, processed or stored. Wash hands carefully before eating or smoking. To maintain good health habits.

Aspiration hazard

No data available

#### **Potential Health Effects**

**Eye:** Corrosive to eyes. Eye contact can result in corneal damage or blindness. **Skin:** Hazardous in case of skin contact (sensitizer). The amount of tissue damage depends upon length of contact. Skin contact can produce inflammation and blistering. Prolonged exposure may result in skin burns and ulcerations.

**Ingestion:** Harmful if swallowed. Causes chemical burns to the mouth, throat, oesophagus and gastrointestinal tract. Risk of perforation in the oesophagus and stomach. Swallowing concentrated chemical may cause severe internal injury.

**Inhalation:** Inhalation of dust will produce irritation to gastrointestinal or respiratory tract, characterized by burning, sneezing, coughing and wheezing. Overexposure by inhalation may cause respiratory irritation. May be fatal if inhaled.

#### Signs and Symptoms of Exposure

Repeated exposure of the eyes to a low level of dust can produce eye irritation. Repeated skin exposure can produce local skin destruction or dermatitis. Repeated inhalation of dust can produce varying degrees of respiratory irritation or lung damage. Repeated exposure to an highly toxic material may produce general deterioration of health by an accumulation in one or many human organs. To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

#### **Additional Information**

RTECS#: CAS#16079-88-2: Unlisted

Persistence and degradability

No data available

#### **Bioaccumulative potential**

No data available

Mobility in soil

No data available

### **Results of PBT and vPvB assessment**

No data available

### Other adverse effects

An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

Very toxic to aquatic life.

## Section 13 - Disposal Considerations

#### Waste treatment methods

Waste from Residues / Unused Products: Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Additionally, waste generators must consult state and local hazardous waste regulations to ensure complete and accurate classification.

**Contaminated packaging:** Contaminated packaging material should be treated equivalent to residual chemical. Clean packaging material should be subjected to waste management schemes (recovery recycling, reuse) according to local legislation.
